Standard Classroom

A standard classroom has a projection system that will display the Room PC or a laptop. These classrooms also have speakers to play videos. The volume controls will be located on the touchpanel in the classroom. If you are using your laptop to project, you have the option to use the cables provided or use AirMedia to wirelessly project your screen. The laptops connections for a standard classroom are HDMI and DisplayPort. There is **no longer** VGA in standard classrooms. To use AirMedia, please look at the guide listed below.

AirMedia Guide Windows Edition: https://ithelp.harrisburgu.edu/support/solutions/articles/44001707558-using-airmedia-in-the-classroom-windows-edition

There is also a guide about AirMedia for Mac and Mobile Phone on the ITHelp website

Standard Classroom Guide: https://ithelp.harrisburgu.edu/support/solutions/articles/44001711706-how-to-use-classroom-technology

Video-Enabled Classroom

A video-enabled classroom gives anyone the ability to make a video call from the room PC or record a class. These rooms are equipped with a camera and microphone system to capture your class in addition to all the features of a standard classroom. These classes can be recorded in Microsoft Teams and be distributed to your students.

Record your class using Teams: https://ithelp.harrisburgu.edu/support/solutions/articles/44002254226-record-your-in-person-class-using-microsoft-teams-canvas-

Record your class using Adobe Connect: <a href="https://ithelp.harrisburgu.edu/support/solutions/articles/44002254206-record-your-in-person-class-using-adobe-connect-canvas-your-in-person-canvas-your-in-perso

How to have an impromptu meeting on Teams in a classroom:

https://ithelp.harrisburgu.edu/support/solutions/articles/44001707560-record-your-in-person-class-using-microsoft-teams-meet-now

You will need use the Room PC to use these features as the camera and microphone are built into the room. Laptop

Teams Room System

Room 118 in the Student Union is equipped with a Teams Room System. These rooms have a touchpanel on the table to control the Teams call and display. These rooms have HDMI and DisplayPort connections for presenting on a laptop. You can also make standard phone calls from these rooms. When creating a meeting for these rooms and learning basic functions of the room, refer to this How-To Guide to learn more about using Teams Room Systems.

Teams Room User Guide: https://ithelp.harrisburgu.edu/support/solutions/articles/44001774226-teams-room-225-user-guide

Surface Hub Rooms

Rooms 1036, 1136, 1462, 1464, and room 222 in the 225 office are outfitted with Surface Hubs. You can use the hub to present from your laptop, make Teams calls, or standard phone calls. Additionally, the Surface Hub has a built-in digital whiteboard and limited PC functionality. The PC natively runs a browser, Office apps, and OneDrive to access your files. The laptop connections for these rooms are HDMI, DisplayPort, and Miracast. Miracast enables Windows 10 laptops to present wirelessly within the room. When creating a meeting for these rooms and learning basic functions of the room, refer to this How-To Guide to learn more about using Surface Hub rooms.

Surface HUB User Guide: https://ithelp.harrisburgu.edu/support/solutions/articles/44001775075-microsoft-hub-user-guide

Livestream Room

Livestream rooms are equipped with presentation technology, cameras, and microphones to facilitate a full video production of your event. These events differ from a Teams call because remote participants can only watch the presentation. These rooms, 1151 and the auditorium, require IT/AV assistance in setting up the production of a livestream. 1151 has laptop connections for HDMI, DisplayPort, and VGA. The auditorium only has a VGA connection for laptops. Both rooms are equipped with a room PC. Please make sure you submit a ticket with ample time to iron out the details between you and the IT/AV team. We are happy to help with any and all questions you may have regarding your event.
